Thesis: Genesis 3 tells us of one of the worst events in human history. It tells us of the moment sin enters into the world through deception and temptation and the world is profoundly impacted forever. Man's disobedience leads to judgment. And judgment leads to conflict and separation in the two most important relationships: our relationship with God and the relationship of marriage. But we get to see God's grace shining through in the darkest moment of human history.

1. Temptation from the rogue sympathetic serpent leads to disobedience (vs. 1-8)

Application: Are you living in sin? Don't try to hide from God.

2. The trial in the courtroom of heaven and judgment pronounced (vs. 9-19)

Application: Be grieved by the weight of sin that currently affects our world.

3. God's provision as the judgment is carried out (vs. 20-24)

Application: See God's grace in this sin cursed world.
