Thesis: There is often much confusion about the identity of the children of Abraham in the New Testament. To understand who they are, we must look to the Old Testament to find their origin. But if the whole Bible is a book about Jesus Christ, then He is the key to understanding this biblical truth.

1. Physical descendants of Abraham (Romans 9:1-5)

Application:

Being loved intimately by an Infinite, eternal, all-powerful God should cause us to love others as well.

2. Spiritual descendants of Abraham (Romans 9:6-9, Genesis 21:12)

Application:

The children of the promise joyfully share the message of the promise.

3. The descendant of Abraham that blessed all nations (Genesis 12:1-3)

Application:

Trust the plan of God by living according to the Word of God.
