Thesis: Sin continues to expand and affect the whole world. It continues to violate God's plan and in doing so it brings suffering. It becomes clear that sin has been passed from Adam and Eve to all of humanity. But sin stands no chance against a sovereign God who has a plan to redeem those who follow Him.

1. Sin violates God's plan (vs. 1, 2, 4).

A. For marriage

B. For power

2. Sin has corrupted all of humanity (vs. 5).

3. Sin brings suffering (vs. 6, 7).

A. In judgment

B. To others

1. To those who were meant to help us

2. To God Himself

4. Sin stands no chance against God (vs. 8).
